

What was that war?

What did you go to battlefield for?

What was the war on Iraq?

U.S. soldiers, what was the war on Iraq for you after all? The reason for the war, given by the Bush administration that there were weapons of mass destruction in Iraq, has been shown to be totally baseless. Bush told lies for the war.

How many innocent Iraqi people were slaughtered by US military actions? A lot of U.S. soldiers were also fallen in the battlefield. All through the war, Bush stayed comfortably in his chair in the White House, far from the bloody battlefield. Oil corporate capitalists won't go to there, either. They are now discussing over who would get lion's share in the occupation of the oil field in Iraq. For their profit, you have been sent there to kill a lot of valuable lives.

U.S. rule in Iraq is destined to break down

This war was an unjust war, a war of

Stop War! World Action 5.17

At 5:30p.m on May.17 (Sat.) At Miyasita Park(in Shibuya Tokyo)
Sponsored by Stop War! World Action 5.17

5.23 mass-rally

At 6:30p.m on May. 23 (Fri.) At Meiji Park
Sponsored by 20 labor unions of transport workers of land, sea, air, and long-shore

aggression for the sake of oil and imperialist territory. It was a war only for the rich, carried by you, ordinary people. Neither was it a war of liberation for Iraqi people. Total destruction of Bagdad and many other cities and massacre of civilian people by weapons of mass destruction, including bunker busters, cluster bombs, daisy cutters and finally Depleted Uranium bombs could it be called a liberation? Evidently the Iraqis have not welcomed the U.S. and U.K. forces.

All over the country there have been widespread furious demonstrations against the occupation. Scores of Iraqi people were killed by the gunfire of the 'liberation forces', proving once again the US and UK armies are nothing but invasion forces. Anti-US revolt of Iraqi people has just begun. The more military suppression escalates, the more people's struggle will be strengthened. Iraq will become the second Viet-name for US. Occupation and rule of US, diametrically opposed to the self-decision right of Iraqi people, is destined to break down!

You will be sent to Syria or North Korea again?

It is not everything. Bush intends to expand the war drive. He openly declares that his next target will be Syria and also North Korea. The essential aim of the Bush administration and US imperialism is to monopolize the oil and other important resources all over the world and to establish a new world order under US rule. It will result, however, in intensified struggle of national liberation and in aggravated antagonism between imperialist powers over the world domination. US will never prevail in face of mounting people's struggle of the whole world. Which way are you going to choose, the way of imperialist war with endless slaughter of innocent people and insignificant death of soldiers on the battlefield, or the way for people's self-liberation opposed to imperialist war?

Are you aware that you could be undermined by radioactivity of Depleted Uranium shells during the war? Do you want to be still the slave of Bush and corporate capitalists and to devote your precious life for them? Do you dare to continue killing people until finally you would be killed? You have a right to live as a human being.

Friends! No war! Stop dispatch! Now stand up with us, with all over the people!

No war, no more war! Now let's demand to stop US occupation of Iraq, and to get US forces out of Iraq as well as the whole area of Middle East. In your country, many of your friends are rising up for a movement against the Iraq war and occupation of US. Let us join, with all your courage, in the anti-war actions together with your friends in ranks.

We, Japanese, are also struggling against participation of the Japanese government in Iraqi occupation as well as against the legislation of the Emergency Law (the war time law) for the preparation of war on North Korea.

In your country, on May.17-18, mass rally and demonstrations are planned. In Japan, in Miyashita Park in Tokyo, a demonstration is going to be held.

Please discuss in your ship and barracks about this unjust and cruel war, and also about your own rights. Please take part in demonstrations either in your country or in Japan.

Let us gather all of our powers to overthrow Bush administration and Koizumi government, the establishment for the rich! Let's fight together!
